RE: Site Inspection, B and J Placer Claims, S/015/041, Emery County, Utah

Date of Inspection: April 29, 1993
Time of Inspection: 12:00 - 12:30 p.m.
Conditions: Sunny, cool
Participants: Bob Shajary, Georgia Pacific; Phil Palmer, operator; Neil Simmons, BLM; Holland Shepherd, DOGM

Purpose of Inspection: This inspection was performed to evaluate the current status of the site.

The site was active during our inspection. The operator Mr. Phil Palmer was trying out a new method of surface mining, with a continuous mining machine. The machine was a converted asphalt ripper.

The site is still under 5 acres.

The site is being well maintained. The BLM has asked the operator to reduce a pile of ore to below highwall level as a means of aesthetically improving the site. The site is just off a road used by tourists interested in viewing the San Rafael Swell scenery.
